**EXAMINER'S AMENDMENT**

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Mr. Michael Epstein on March 26, 2003.

The application has been amended as follows:

A) Cancel claim 32

B) In claim 33, line 17, replace the words "first frequency" with  
--- sampling rate ---.

2. The following is an examiner's statement of reasons for allowance: The prior art discloses a method of operating a system for generating electrical power from a source of variable input energy wherein the energy is collected, an electrical generator is used, a link member and an electrical impedance is varied depending on the input of the energy. However, the prior fails to shown, in combination with the invention, collecting an input energy for causing movement of an energy transferring link for driving an electrical generator for generating and transferring electrical energy to a load and measuring the amount of movement of the link when the measured amount of movement exceeds a predetermined amount of movement of the link above which damage to the system is likely to occur, decreasing the electrical impedance of the load by a variable amount dependent upon a measured amount of movement and the source of mechanical energy being surface waves occurring at a first frequency on a body of water and monitoring the amount of movement of the drive link at a sampling rate in excess of the first frequency and varying the input impedance of the load at a rate up to a sampling rate response to varying amplitudes of individual surface waves.

*Conclusion*

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
